Total sales of stocks were 254,344 shares, including: American Tobacco, o.400; American Sugar, 29,110; Burlington & Quincy, 23,550; Chicago Gas Trust receipts, 19,800; Delaware & Hudson, 3,260; General Electric, 5.500; Louisville & Nashville, 15,500; Northern Pacific preferred, 5,650; Omaha, 9,960; Reading, 9,050; Rock Island, 5,000; St. Paul, 41,600; Tennessee Coal and Iron, 4,415; West-

ern Union Telegraph, 6,475. Nothing outside the news of the war between Turkey and Greece had much interest in Wall street yesterday. The traders in stocks are accustomed to look with reliance to the course of prices on foreign exchanges to guide them in their dealings in properties likely to be affected by European affairs. The absence of this index | 16@17c per lb. yesterday on account of the continued closing of the exchanges in London and Paris over the Easter holiday, left the minds of the traders in some confusion, and as a result the movement of prices was at times very erratic without any corresponding change in the tenor of news to justify it, It was evident at the opening, however, that the New York market was bearing the brunt of whatever selling was a result of the war, not only by local holders, but by those in London and Paris and in Boston where the exchange also was closed. The scene at the opening was an exciting one and there was heavy pressure to sell through the whole list. There had been many stop orders placed before the opening in anticipation of a slump and these were speedily uncovered, running sales of from 1,800 to 4,000 shares being made at the opening in many stocks. The international stocks, of course, were most affected and decilned the most, Louisville & Nashville being the most conspicuous example with a fall of 3%. Other international shares lost over a point in the initial dealings and of the Vanderbilts, New York Central and Lake Shore were each off 2. The grangers

showed marked declines, extending to 1% in St. Paul. -The whole list sympathized and lost from a fraction to nearly 2 points, An apprehension of gold exports had its added effect in depressing prices, and the rates for exchange notably hardened on the war news. Some exchange brokers regard the rate of exchange having reached the gold export figure yesterday, but dealers in stocks are in doubt whether the foreign Blossburg coal, \$4.50; crushed coke, \$3 per 24 bu; buying of our breadstuffs which results from the war will not be sufficient to offset foreign selling of American securities and so keep the balance of credits in our favor. It was this doubt that helped to stem the fall of prices, though this was l mainly due to the reports that became current that foreigners were buying stocks lec; oil, castor, per gal, \$1.05@1.10; of, bergamot, here and were also selling grain on the rise. per lb, \$2.75; opium, \$2.75; quinine, P. & W., The rally in the stock market was coinci- per oz, 24@31c; balsam copaiba, 70@75c; soap, dept with the reaction of wheat, and both castlle, Fr., 12@16c; soda, bicarb., 45@6c; salts dent with the reaction of wheat, and both were more or less due to the knowledge of foreign operations against the current. But foreign operations against the current. But potassium, \$3@3.10; bromide potassium, 50@52c; the rally in stocks failed to hold, although wheat continued at the lower level. The 12@15c; carbolic acid, 28@30c. rally in stocks was general and extended to over a point in Louisville & Nashville, New York Central, Reading and Kansas & Texas preferred. The activity of the market was largely suspended at this period owing to the confusion of mind of the traders and was somewhat spasmodic afterwards. St. Paul was the most actively dealt in of the stocks, the sales footing up over 40,000 shares. Prices resumed a downward course after the rally and in most cases reached the maximum decline for the

key and Greece overshadowed all else in its

As was expected wheat was wild and excited at the opening. The news that war | crease of \$70,000 bu; rye, 3,650,000 bu, a decrease had actually begun produced consternation among the shorts, and the utter disregard of caution displayed by a majority was clearly indicated by the prices they paid at first. May wheat, which Saturday closed at 73%c, started this morning in one mighty bound from 34c to 44c higher. There was a difference of 1c per bushel in price between the first transactions made simultaneously in different parts of the pit. Both May and July were bought at from 77c to 7716c, with a few sales as high as 78c. So utter was the confusion and haste to do business during the first few exciting moments that men standing alongside of each other in the pit were doing business at 1/2c per bushel difference. Most of the usual statistical news was wanting, owing to the closing of the foreign markets during the Easter holidays. Private cablegrams, however, showed a curb advance at Liverpool equal to 6c per bushel. Although reports from the growing crop were enough in themselves to produce a strong market, it is probable that after Saturday's excited bulge a reaction would have been recorded to-day had it not been for the outbreak of hostilities in Europe. As it was, after the first wild scramble, the excitement beautiful to the first time since it was bid up to 77%c, sold at 77%c, fluctuated for awhile between that price and 77%c, and then was offered down to 77%c; 76%c was bid at the close. For the first time since itself cash wheat passed the first wild scramble, the excitement be- the dollar mark. Messmore & Gannet sold one gan to die down. The market heaved and sank and heaved again, however, in great irregular billows for an hour before its motion got calmed down for a while to the comparative ripple of its ordinary fluctuations. Realizing during this time was enormous. Line after line of long wheat was thrown on the market and acted like oil ably prevented what many looked for tonamely, 80-cent wheat. Cudahy, Linn and Barrett were the most conspicuous sellers during the first hour, the two former supposed to be taking profits on long stuff, while the latter sold for the short account. Cudahy and Linn were credited with clearing something like \$100,000 each as a result of the day's transactions. John the price settled down in the manner indicated it had touched 74%c on its downward course and reacted to around 75c. It rose again to 76%c, once more got down to 75c and closed at that. Chicago received six carloads of wheat and 63,000 bushels were

the corresponding day of the year before, and 662 cars a week ago. Clearances since Saturday from the four principal Atlantic ports were equal in wheat and flour to-gether to 285,000 bushels. The visible decrease for the week was 727,000 bushels. Corn was influenced chiefly by the ex-cited feeling in wheat, and at the opening much resembled that market in the wide range of prices. There was instant reaction under realizing by holders, and for the rest of the session the market ruled comparatively quiet. Covering by shorts during the last few minutes started prices up again and the market closed strong. Exports were heavy, 1,105,000 bushels. May opened %6 %c higher at from 24%c to 25c,

gardually settled to 244c and reacted to 24%c, where it closed. Oats opened firm on the war scare and in sympathy with wheat and corn, and for a time exhibited considerable strength with free covering by shorts. Sellers were not lacking and liberal realizing soon caused a break. The market then steadied and prices gradually advanced. May opened about %c higher, at 174417%c, sold between 17%c and 16%c, closing at 17%c.

Provisions were excited for a few minutes at the start by the war talk, but the packers had more for sale than there were buyers, and the consequence of which was that early buyers had cause to regret their impulsiveness. The prices made in the first fifteen minutes were the highest of the day, and at the close they were near the bototm of the range. May pork closed a shade lower at \$8.47%; May lard, 2%c lower at \$4.20 bid, and May ribs a shade lower

Wheat's Wild Jump in New York. NEW YORK, April 19 .- The announcement that war had been declared between Greece and Turkey set the wheat market wild this morning. On the heels of Saturday's 4-cent rise in prices came another jump of 4c, May opening all the way from \$24c to 834c, so intense was the excitement prevailing at the outset. For an hour the market was in a furore, with valuesfluctuating so wildly that it was next to impossible to follow their course. May reached 83%c to the whole thus effected the forwardings on on one of its wild spurts, which proved to be the high water mark for the day. Suddenly foreign houses, local traders, outsiders and everybody who had clamored to buy wheat at the opening turned sellers. Large profits were represented on most of the wheat thrown over, and by midday the unloading process was in full swing, with | brokers, 11.25c; Exchange, 11.30@11.50c. Tin dull; prices tobogganing down hill as fast as they had ascended. May tumbled to 80% before the selling movement could be checked. From this point there was a later rise to 82%c, followed by a set back to 81%c and a subsequent rally, the close being extremely nervous. At the best point to-day May was 12% c above the bottom and 8% c higher than the closing of Thursday. Foreign markets were all closed to-day, which accounted in a measure for the abundance Cooy, Lewisville; Oliver L. Evans, Russia- of European orders in the market. Lack of export demand and private cables expressing the belief that the war would be peaches, 6@7c, unpeeled; peeled, 11@14c. confined to Greece and Turkey were influences in the late session.
